FOR IMMEDIATE RELEASE

ISC WEST OPENS TODAY WITH PACKED AISLES AND BUSY BOOTH TRAFFIC

The Security Industry's Largest U.S. Annual Gathering Celebrates Global Innovation and Technology Developments

(LAS VEGAS, NV April 6) - - - The sold-out ISC West exhibition hall opened today with a bang! Ingersoll-Rand figuratively opened the show with a fully integrated access control system with a flurry of confetti shot from cannons. The packed show floor featured over 10,000 products from 900-plus manufacturers creating business buzz and robust foot traffic. The show floor includes more than 150 first-time exhibitors bringing never-before-seen products and solutions to ISC West.

This year's 32nd SIA New Product Showcase (NPS) featured 85 entries from 70 companies. FST21 earned Best New Product for its SafeRise® product in a ceremony held in the SIA booth. SafeRise incorporates facial and voice recognition and can detect when a person is in trouble by behavior.

SafeRise provides easy and convenient access to authorized tenants and approved visitors while maintaining the highest level of security. FST21 is a security technology company in Tel Aviv, Israel, founded by Major General (Res.) Aharon Zeevi Farkash.

The day opened with the annual State of the Industry presentation, moderated by Sandy Jones, Sandra Jones & Co., featuring Mike Howard, Microsoft; Carey Boethel, Siemens; Jamie Rosand Haenggi, Protection One; Bill Taylor, Panasonic System Networks Company. The overall theme of the presentation was technology. While the rapid development of technology is important, don't let it get in the way of strategic business decisions that are right for your customers, the panel cautioned. The ubiquity of broadband, smart phones and apps, home automation and VoIP, the industry is under increased pressure to diversify beyond security.

ISC Premier Education SeriesSM presented tracks and sessions by job title incorporating hot topics for each. Cloud Computing Security, several Case Studies featuring security for houses of worship and the Hidden ROI with IP Systems at the San Jose Airport and Designing, Pricing and Selling Service Agreements were highlights.

"We have to be at ISC West," says Erin Rangi-Watt, PR and communications manager-security for Gallagher Group, Ltd. "If you're not here, your absence is noticed. We meet the right people and have the opportunity to network. Plus, attending the ISC Premier Education sessions enables us to learn about developing trends, get ideas and validate our business strategy going forward."

Tomorrow, ISC West will be the site of the second annual Security 5K road race to benefit Mission 500, a non-profit organization dedicated to serving the needs of children and communities in crisis. Over 400 runners from the industry will be participating at the 7:30 AM start.

Other highlights include Korea Day, a networking opportunity with Korean exporters; The Women's Handbook to Professional Success in the Security Industry panel discussion; presented by Women's Security Council; the SIA/NICET Forum: Safety and Security through a Qualified Workforce and a session on FICAM and Industry's partnership to comply with OMB-11.

With so much ground to cover, ISC West has made the show floor layout easier to navigate with a series of tools that include "My Show Planner" kiosks in various locations on the show floor and ISC West Mobile for smart phones. ISC West Mobile features educational sessions, special events, show floor locations and an online exhibitor directory and interactive map and can be downloaded from the app store for iPhones and by going here www.iscwestmobile.com for Blackberries and Droids.

ISC West:

ISC West is the security industry's premier launching pad for new products, solutions and technologies in the U.S. Each year, ISC West hosts over 900 international and domestic security product manufacturer companies and over 23,000 security professionals in Las Vegas.

Currently, ISC West is completely sold out with sales projections pacing towards a 10% growth in show floor space making ISC West the largest exhibition hall in the US for security. This year's ISC West Premier Education Series will provide the latest insights and applications for security professionals involved in every segment of the industry. Designed by the ISC Educational Advisory Board in collaboration with the Security Industry Association (SIA), ISC Premier Education Series is the security industry's broadest offering of education, developed by the industry, designed to take today's security professional to the next level.

ISC West Exhibition will take place on April 6-8, 2011 at the Sands Expo & Convention Center, Las Vegas, NV with the ISC Premier Education Series beginning on April 5-7, 2011.

ISC Premier Education Series is the security industry's broadest offering of education, developed by the industry, designed to take today's security professional to the next level.

The Security Industry Association (SIA)

SIA is a nonprofit international trade association that represents more than 350 electronic physical security product manufacturers, specifiers, integrators and service providers.
