MOBILE UNITS / MOTORIZED VEHICLES
Exhibitors or agents with mobile or motorized equipment will require guidance to their respective booths. This guidance is required and provided by Freeman to prevent damage that may occur to exhibitors, the property of others, or when necessary to move crates that may be in the aisles.

Motorized equipment is defined as a tractor, forklift, crane, etc. arriving at the exhibit hall that can be driven to the booth location under its own power.

Exhibitors may drive their motorized equipment into and out of the exhibit areas or have Freeman supply an operator when available. Vehicles are scheduled in according to the Target Move-In Schedule.

Each vehicle shall comply with the following:
1. Batteries should be disconnected in an approved manner.
2. Vehicles shall not be fueled or refueled within the building. Fuel in the tank shall not exceed 1/4 of the tank capacity or 5 gallons, whichever is less.
3. Fuel tank openings shall be locked and sealed to prevent escape of vapors.
4. No leaks underneath vehicles.
5. At least 36” clear access or aisles must be maintained around the vehicle.
6. Vehicles must be a minimum of 20 feet from exit of door or exit pathway.

LIST MOBILE UNIT DIMENSIONS AND WEIGHT
Please note: Specify pounds or kilograms, metric or imperial.
